Ref: Chemetco Superfund Site General Notice Letter

Dear Ms. Tanaka:

Olin Corporation does plan to negotiate with the USEPA regarding the Chemetco Superfund Site as part of a Site PRP Group.

Olin has been in active discussions with several other PRPs to try to form a Group.

A letter was recently sent to Michelle Kerr by several PRPs, including Olin, requesting some additional time and information to assist in convincing others to join a Chemetco PRP Group.

Sincerely,

A handwritten signature in black ink, appearing to read "Curt M. Richards".

Curt M. Richards
